

To be original for us means to be leaning towards one's origin. Marble is our origin as well as being an extraordinarily unique material. The unique shape, the primordial nature, everything can always be traced back to its origin. We have followed the path of marble, mixing the contemporary modern with the history from which it descends, recent technology with the oldest tools, style with the rock that inspired it, design with the intrinsic light that this material possesses and is capable of diffusing in any ambience.

The LENZI brand wanted to go beyond the approach of offering products interpreted as single moments and focus instead on a wide-ranging collection concept. The desire to create a collection in which each product was in a semantic correlation with the others was a fundamental cornerstone of the new course. A true total living project. To achieve this goal, the Lenzi siblings, Claudia and Simone, entrusted the architect Maurizio Manzoni with the Art Direction and development of the designs for the new course and the new concept, which started from an analysis of the brand's roots and remains traditionally known for its use of MARBLE as an essential material, and of contemporary living trends.

The LENZI HOME COLLECTION mood was born: a capsule collection developed with harmony and an innovative aesthetic taste. Every piece is a work of art, characterised by a sophisticated design, embellished with the most refined varieties of marble and finishes. The designed

environment is delicate, elegant: the products are exalted by using high-end materials. The typical peculiarities of the matter have been recovered from the company background and territory, then enhanced by artisanal workmanship of artistic elegance. This also represents the Made in Italy spirit, universally known and appreciated.

Maurizio Manzoni strove to exalt the primitive spirit inherent in matter. Elements such as stone and wood naturally shaped by the ages and from which the skilful hands of craftsmen have learnt over the centuries to take inspiration in their creations. Designing, then, is nothing other than showing how, thanks to the skilful and conscious use of the substances made available by nature, man can surround himself with products with which to enter into synergy. To propose a conciliatory environment, capable of placing the human being at the centre of his or her own private space. This is the LENZI commitment, which makes all this available to the needs of home living.

ADON 2.0

Design Maurizio Manzoni

Adon Componibile is reintroduced in a renewed and modernized version, refined to suit contemporary tastes. Its quintessentially Italian minimal design is enriched with intricate details and expert craftsmanship. Maintaining its hallmark comfort and versatile modularity, it offers a wide array of composition possibilities. Undoubtedly, it stands as the undisputed focal point for creating a sophisticated and personalized living space. The suspended, airy volumes rest on a sleek metal structure, presented in a corner configuration with a functional marble top, elegantly completing the composition.

CLOE

Design Maurizio Manzoni

An armchair with a captivating design, ready to embrace its guest in luxurious comfort. Its alluring, seductive forms engage the eye with a flowing succession of soft, upholstered curves that define its volumes. Timeless shapes seamlessly adapt to any stylistic setting. Presented in leather, carefully selected to enhance and accentuate the natural folds that characterize its design.

MINERVA

Design Maurizio Manzoni

A refined and elegant dresser, distinguished by its clean, sophisticated lines. It is available in a lacquered finish with contrasting details and a marble top. Functionality is ensured by its structure, featuring six spacious push and pull drawers. Minerva is a practical yet stylish furnishing element, perfect for creating a distinctive and personalized bedroom.

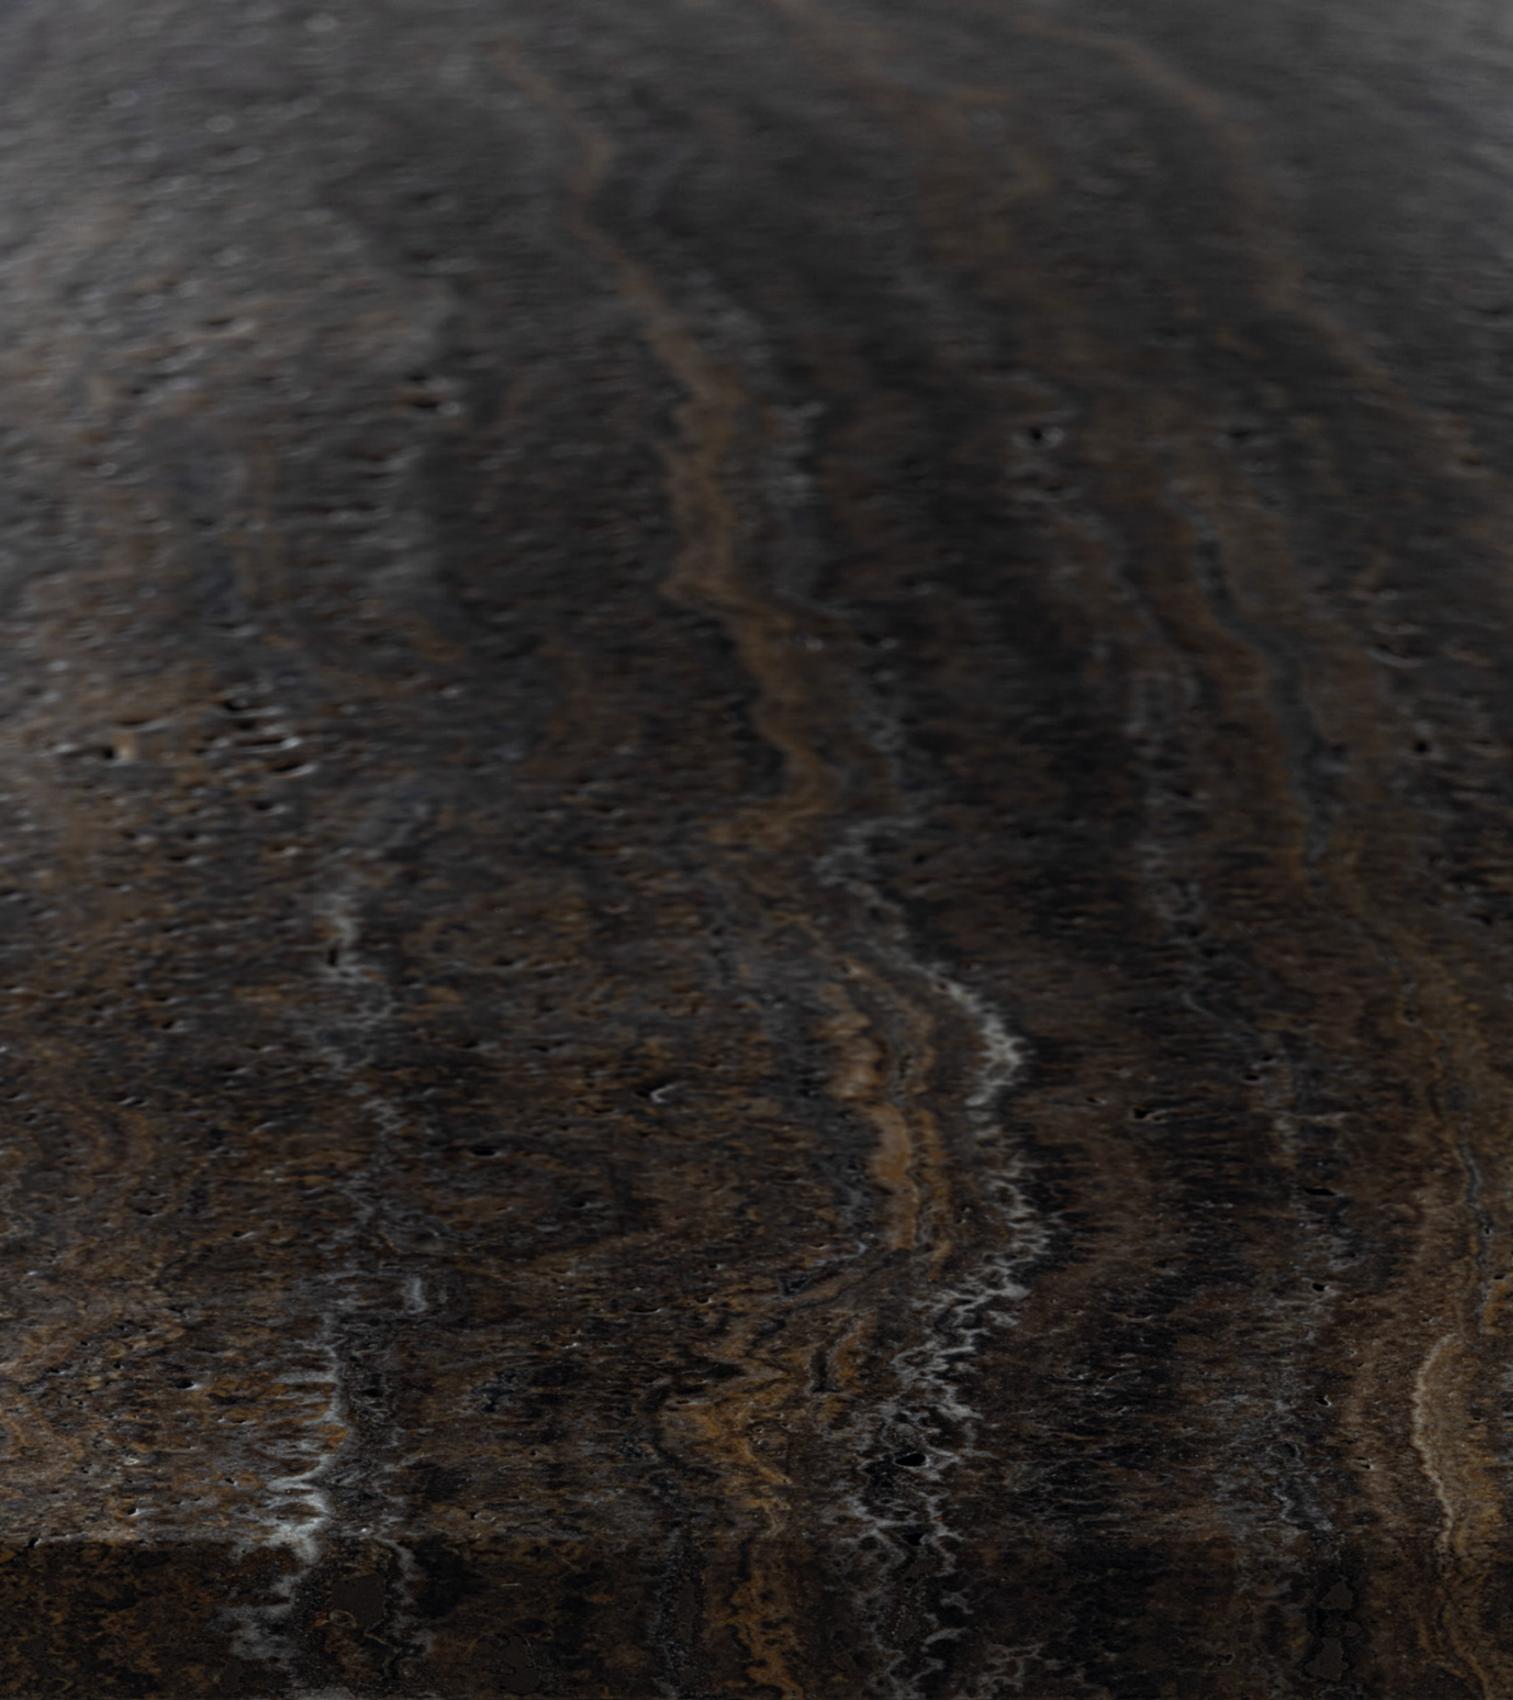

MINERVA dresser. GR-SSLHC5. cm 200x48x76h. Six drawers dresser lacquered in col. Satin Sand with LHC5 black details. Grey River marble top.

VELA

Design Maurizio Manzoni

Like sails gliding across the seas, the Vela double-sided bookcase stands out in its environment, embodying the lightness of design. It is composed of finely crafted metal elements, playing with solids and voids that evoke the airy touch of the wind caressing sails in their journey. Vela consists of six functional horizontal elements: five crafted from natural marble or travertine, and a sixth serving as the base, available in wood or lacquer. Its refined yet minimal design seamlessly integrates into any setting.

VELA bookshelf. TITDKEG. cm 240x40x180h. Bookshelf with 5 shelves in Travertine Titanium leather effect finish. The Metal structure is composed by 4 laser cut vertical metallic frame lacquered in Dark Shadow finish. The base wooden support has been lacquered in col English Green.

FLOWER

Design Maurizio Manzoni

A pair of coffee tables designed to be used individually or as a composition, thanks to their varying heights. The organic tabletop design is inspired by floral forms, with the cylindrical base emerging at the surface like the pistil of a flower. The taller version ensures stability with a metal base plate at the ground.

KISS

Design Maurizio Manzoni

A coffee table with a distinctive shape, carefully designed to pair seamlessly, like a kiss. The tabletop features a unique circular tray element that extends from the central base column. This element can either blend harmoniously with the top when finished in lacquer or create a striking contrast when paired with a stone surface.

AGAPE

Design Maurizio Manzoni

Lenzi introduces its first collection of furnishings dedicated to the night area, with Agape, the bed, as its standout centerpiece, around which the bedroom takes shape. This upholstered bed features clean, essential lines that remain soft and inviting. The headboard and bed frame, designed as two harmonious elements, create the illusion of a floating sleeping surface. This captivating effect can be further enhanced by an optional, discreet ambient lighting system, perfect for setting the right mood. The headboard is distinguished by marble inserts on its sides—a noble and powerful material, elegantly softened by its seamless integration with the upholstery. Agape is presented in a refined bouclé fabric, offering a rich sensory experience with its soft and inviting texture.
